I've worked with Brandon for more than 6 years on several properties that I needed to get sold. He's the best real estate agent I've known, going far beyond usual expectations. He's very knowledgeable, eager to work hard to make deals happen, very responsive and creative, proactive, and a nice guy who genuinely wants to help others--even when there's not a buck in it for him. Couldn't ask for anything more!

As a residential subdivision developer, I have encountered a fair number of real estate professionals. Brandon Marchand is exceptional. He is responsive, knowledgeable and flat out makes things happen. Pleasant Prairie Estates was the first project I have done with him. He sold it out, stayed on top of things and got the job done. I strongly recommend him to sellers.

Brandon is such a superstar. We live out of state, needed to sell our Spokane home - the quicker the better. We had wonderful folks renting the house and Brandon worked with them to ensure the property was left in amazing condition. He listed the property, coordinated the paperwork from a distance, had the house listed at a price that would get it to sell within a few days...cannot say enough great things about how this was handled. Thank you again!!

I have bought and sold several houses and property's with a realtor and found Brandon to be the most thoughtful and informative of any i have dealt with. I would highly recommend him to anyone who is interested in selling their home or buying one. He is someone who will work with you not for himself, it was a great experience. thanks Brandon for all your work. RICH

Working with Brandon and his team was a real pleasure. Selling our old home and purchasing our new one could have been a nerve wracking experience, but they helped make the process as painless as possible. If we ever had a question, no matter when, Brandon was always a text message away. We would highly recommend The Spokane Home Guy Group to our friends and family without hesitation.

Brandon is the best realtor we have ever worked with. He sat down and listened carefully to what we wanted when selling our home and for buying a new one. He went out of his way to help us feel confident and secure every step of the way. His communication is excellent and prompt. We are recommending him to everyone we know for any real estate needs!

Brandon and his team helped us sell our house and purchase our new home. In both listing our house and helping us find our new home, Brandon was very knowledgeable and helpful throughout the whole process. Brandon took the time to understand what we wanted in a house and was very patient as we looked at houses. In the end, he was able to sell our house for the price we wanted and find the perfect house for our family.

I love the Spokane Home Guy group. I've worked with Brandon since 2009 on different houses I've bought to flip. He is very knowledgeable about the Spokane market and knows Spokane very well. I've also had the pleasure of working with Aaron and Lenae. Everyone on this team are fantastic to work with. They are all very professional, very helpful and great to work with. Whenever I have someone that wants to look for housing in Spokane I refer them to the Spokane Home Guy Team!

I work in a professional environment where everyday we face the demands of balancing our work load with making every client feel like they are the only and most important client we are dealing with. This task can be difficult. Brandon Marchand makes it look impossibly easy. Throughout our selling process my wife and I were in the loop the minute things were happening. Brandon is incredibly knowledgeable in every aspect of selling a house. From staging, to market analysis, to pricing, to offers and counter offers, Brandon is well versed in them all. We felt entirely comfortable leaning on his knowledge and advice throughout the entire process. Ultimately Brandon got us the best deal we could have hoped for in the most time efficient manner. I would, and have, recommended him to anyone I know buying or selling a house. You won't regret using him or his team.
